SUMMARY

Backend Software Engineer with 2+ years of experience building scalable RESTful APIs and RBAC systems using Node.js, Express.js, and AWS. Skilled in system design, authentication/authorization architecture, and third-party API integrations.

EXPERIENCE

Tech Mahindra

Software Engineer

Pune, India

Nov 2024 – Present

- Developed **40+ RESTful API endpoints** using **Node.js** and **Express** for driver management, payment processing, and route optimization modules across the delivery platform.
- Integrated **RazorPay Connect API** for automated driver payment system, implementing **webhook handlers** for real-time payment confirmation and reconciliation of driver payouts.
- Built **AWS S3 integration** with **pre-signed URLs** for secure storage and retrieval of prescription documents and proof-of-delivery images, reducing **server load by 40%**.
- Implemented **Beans AI route optimization** integration with **webhook-based delivery tracking**, enabling real-time status updates and improving **delivery efficiency by 25%**.
- Created **middleware components** for request validation, error handling, and logging, reducing **API errors by 35%** and improving system reliability.

SKILLS

- Languages:** Java, JavaScript, TypeScript, SQL
- Backend Frameworks:** Node.js, Express.js, RESTful APIs, WebSockets, Socket.io
- Databases:** MySQL, PostgreSQL, MongoDB, Redis
- Cloud & DevOps:** AWS (S3, EC2), Google Cloud, Docker, Kubernetes, Git, Vercel, Render
- Authentication & Security:** JWT, OAuth 2.0 (Google, GitHub), RBAC, bcrypt
- Tools:** Postman, Mongoose, Passport.js, validator.js

PROJECTS

SMCS - School Management System, Express.js, MongoDB, JWT

[Live Link](#)

- Built a **platform with role-based dashboards** for Admin, Faculty, and Student, deployed for a live institution.
- Developed **attendance and marks modules** with subject-wise tracking and percentage analytics, replacing manual workflows.
- Implemented **JWT-based RBAC** securing role-specific endpoints; deployed frontend on **Vercel**, backend on **Render**.
- Actively used by **300+ students and faculty** on a daily basis, streamlining real-world school operations and eliminating manual paperwork.

DevCollab - Developer Networking Platform, Node.js, Express.js, MongoDB, Socket.io

[GitHub Link](#)

- Built a **developer networking platform** with profile discovery, connection requests, and **real-time chat** using **Socket.io**.
- Implemented **multi-provider auth** (Email, Google OAuth, GitHub OAuth) with **JWT** and **bcrypt**-secured credentials.

TaskFlow - Task Manager, Node.js, Express.js, MongoDB, JWT, OAuth 2.0

[GitHub Link](#)

- Architected **RESTful APIs** (MVC pattern) with **dual authentication** — JWT, bcrypt, and Google OAuth 2.0.
- Built **regex search**, **pagination**, and **MongoDB aggregation**, cutting API payload by 40%.

EDUCATION

Chandigarh University

BE in Computer Science & Engineering

Sept 2020 - June 2024

CGPA: 8.19

ACHIEVEMENTS

- Solved Over **300+ Coding Questions** on Platforms like [LeetCode](#).
- [AWS Certified Cloud Practitioner](#) – Amazon Web Services, 2025
- [Google Associate Cloud Engineer Certification](#) – Google Cloud, 2025
